Jeanerette Senior High is a great school. It's great because of the faculty we have here and also because of the student body. The faculty at this school is very different from that of other schools because the teachers create relationships with students' which creates better class environments. Another thing that makes Jeanerette stand apart, is the

number of students' that attend our school. The number isn't very high, which makes our school very tightknit, almost like a family. It feels great to walk down the halls everyday and everyone knows you and you know them! So let's buckle down and get to work because hard work does pay off in the end and if you work hard and come prepared for class every day, good things will come to

you. Our teachers are giving us the tools to succeed in life so why waste it?

This news letter will be very informative. You will know everything from sports, education, and more.

MESSAGE FROM MR. FERGUSON

The beginning of the school year has been a busy, but productive time. Mrs. Freeman and I are optimistic for what the rest of the year will hold. We would like to thank the faculty and staff for the tremendous

job they have done thus far, as well as recognizing the student body for there part in making Jeanerette High a great institution for learning.

SPORTS

So far the season has faced some adversity. Such as losing both our quarterbacks. We are patching up the holes in our team. Coach Johnson said, "we have a very good chance at winning the next few games, which would give us momentum for the rest of the season. We can be successful if we overcome adversity and keep our players healthy and maintain good grades." By Justin Royston
